Welcome to The Townhouse Hotel. This compendium is your guide to dining, comfort and everything you may need during your stay.

A PERSONAL WELCOME

Islamabad is a city of quiet rhythms. Morning mist over the Margallas, tree-lined avenues, and the charm of easy going life in the capital. Whether you are here to do business or to escape it, The Townhouse is designed to be your ultimate urban retreat.

My team is excited to curate the very best experience for your stay. If you need a last minute reservation, a charger you left at home, or just the perfect cup of coffee to start your day, please do not hesitate to ask.

We invite you to settle in and enjoy the art of service.

LEGACY & TRIBUTE

The Townhouse building has a storied past. It was once home to The Emerald Hotel & Restaurant, a beloved yet forgotten landmark from the early 1960's. As an homage to it's hospitality predecessor, The Townhouse Hotel has embraced emerald green as it's signature color; incorporating it into the branding as well as the interior.

While no photos of The Emerald Hotel can be found, the team has shared utility forms, mentioning the original name.

THE TOWNHOUSE ART COLLECTION

In the heart of our design-driven space, we showcase works exclusively by Pakistani artists that spark joy and curiosity. Each piece is carefully selected for its visual appeal and playfulness. Explore, engage, and take your time - the art is here for you.

Astral Odyssey

Hamza Khan Sherwani | FLTR Coffeehouse

Commissioned specifically for The Townhouse, Astral Odyssey brings a sense of playfulness and curiosity to Fltr coffeehouse. Executed in the artist's signature style, the piece introduces colour, movement, and imagination into an informal social setting. Its placement enhances the relaxed atmosphere of the coffeehouse, encouraging conversation and engagement. The artwork's contemporary energy contrasts subtly with the hotel's more classical elements, creating a dynamic balance within the interior narrative. Curated by Usman Ahmed, the work underscores the hotel's commitment to supporting creative expression while enriching everyday guest interactions.

Plinth ED 2/10 Limited Edition

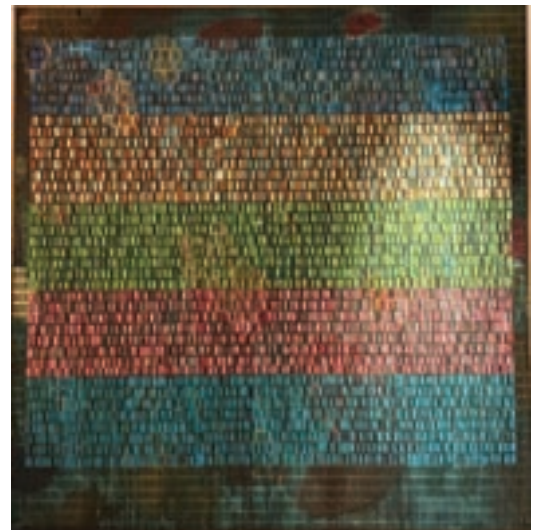

Atif Khan & Sarah Hopkins | Presidential Suite

Located within the Presidential Suite, Plinth ED 2/10 is an artwork that enhances the suite's sense of exclusivity and calm. The piece introduces a subtle architectural presence, balancing form and restraint. Its considered placement allows it to be experienced both as an object of contemplation and as an integral component of the interior composition. The artwork complements the suite's understated luxury, reinforcing the idea that art at The Townhouse is woven seamlessly into the guest experience rather than presented as an isolated feature.

Stain on the Wall

Naqsh Raj | Main Lobby

Positioned within the main lobby, Stain on the Wall serves as a contemplative focal point upon arrival. The artwork's layered textures and abstract presence invite quiet reflection, offering an intentional contrast to the activity of the reception space. Its understated palette allows it to integrate seamlessly with the surrounding materiality while still commanding attention. The piece establishes an immediate sense of artistic intent, reinforcing The Townhouse's identity as a design-driven hotel where art is integral rather than decorative. By encouraging interpretation rather than dictating meaning, the work sets a thoughtful tone for the guest experience.

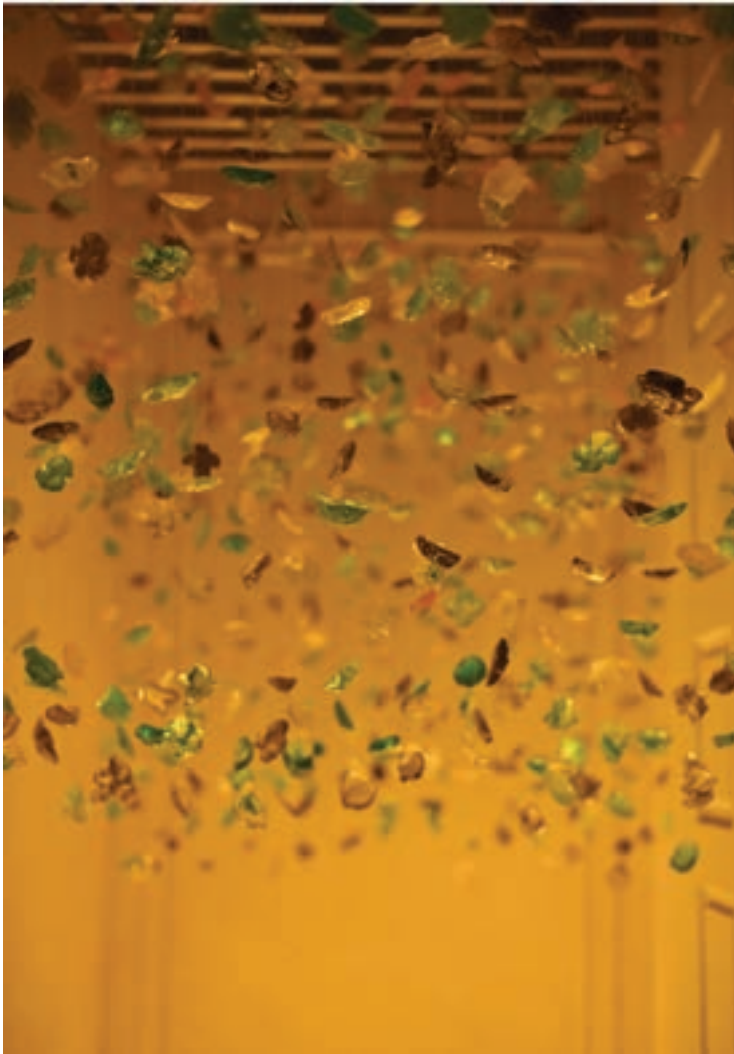

Information Overload

AB Rehman | Main Lobby

Information Overload offers a thought-provoking commentary on contemporary life and sensory saturation. Positioned within the main lobby, the piece invites guests to engage intellectually while navigating the space. Its layered composition encourages closer inspection, rewarding repeated viewing and reflection. By introducing conceptual depth into a public area, the artwork reinforces The Townhouse's identity as a culturally engaged environment. The piece balances visual impact with meaning, ensuring it remains relevant within the dynamic flow of the lobby while adding depth to the overall interior narrative.

Hanging Pebbles

Hussain Jamil | Third Floor Stairwell

Hanging Pebbles is a delicate suspended installation that introduces movement and balance into the stairwell. The individual elements appear to float, creating a sense of lightness and calm within a transitional space. As guests move past the installation, subtle shifts in perspective and motion enhance the experience. The artwork softens the architectural environment, transforming circulation into a moment of quiet visual pause. Its restrained elegance aligns with the hotel's emphasis on thoughtful, experiential design.

Floral Dreams

Abdul Wasiq | Guest Rooms & Suites

Floral Dreams consists of hand-painted wall murals rendered in gold, silver, and copper foil, introducing a sense of intimacy and craftsmanship within private guest spaces. Each mural is individually applied, ensuring subtle variation and a bespoke character across rooms and suites. The reflective metallic finishes respond gently to lighting, adding warmth and depth. These works soften the residential environment, offering guests a personal and tactile artistic encounter that enhances comfort and serenity. The murals reinforce the hotel's commitment to detail and artisanal expression within its most private settings.

Scenes from The Townhouse I/III

Aden Habib | Ground Floor Stairwell

Scenes from The Townhouse II/III

Ground Floor Stairwell | 1st Floor Stairwell

Scenes from The Townhouse III/III

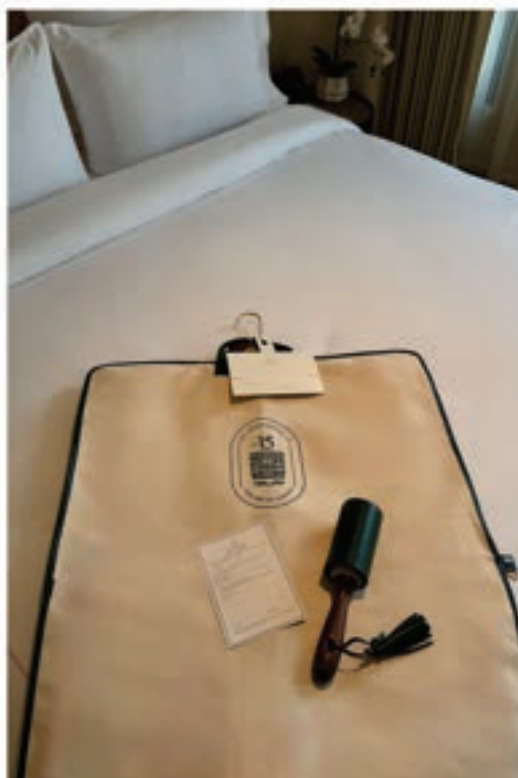

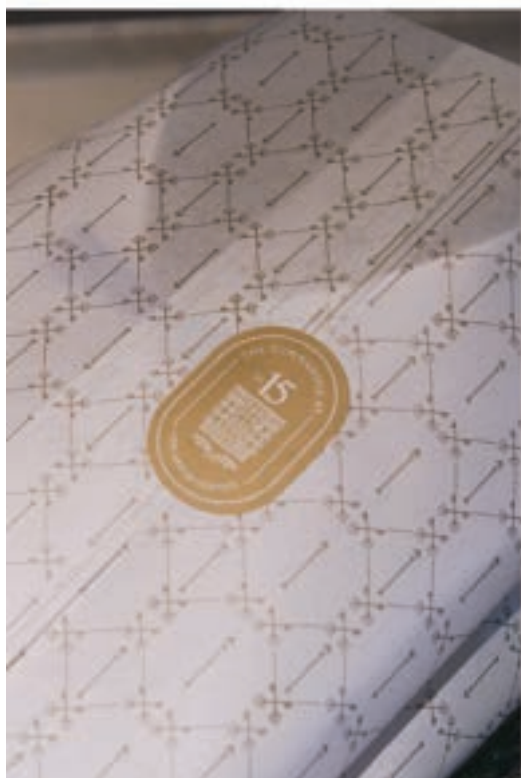

Aden Habib | 2nd Floor Stairwell

This trio of works by Aden Habib introduces a narrative quality to the hotel's vertical circulation spaces. Featuring exaggerated scenes and expressive compositions, the artworks transform the stairwells from purely functional passages into immersive visual experiences. Their placement encourages guests to pause, observe, and engage as they move between floors, reinforcing the idea of discovery throughout the hotel. The dynamic nature of the compositions complements the intimate scale of The Townhouse, adding depth and personality while maintaining visual continuity across levels. Curated by Usman Ahmed, the works subtly guide movement and create a memorable rhythm within the building's interior journey.

A vintage silver convertible car is parked on a light-colored surface. The car has a classic design with a large steering wheel, a spare tire mounted on the back, and a folded-up top. It is positioned in front of a dense, well-manicured green hedge. Behind the hedge, a modern building with large glass windows and a dark metal frame is visible. The scene is set under a clear blue sky, with a dark metal pergola structure overhead. The overall atmosphere is one of elegance and tranquility.

UNTIL NEXT TIME
